Fernando Zavala, Software Developer

After high school, I pursued my passion for programming by taking online courses in Full Stack development. I enjoy solving problems and the satisfaction of finding solutions. My primary stack includes React, Next.js, TypeScript, and Angular. I am eager to learn about new technologies and am currently seeking a full-time role as a Full Stack Developer.

Employment History

Emanu International, Villanueva, Villanueva

May 2020 — November 2021

My first experience was at Emanú International as Full Stack Developer where I developed their main website and also their internal tools using technologies such as: React, NextJS, NodeJS and PostgreSQL.
Also I did use technologies such as: C#, MSQL Server and layered structured to develop a Point Of Sale system desktop app for a store they have.

Freelancer, San Pedro Sula

January 2022 — Present

Then I keep earining experience as Freelancer working for several startups, Like World Bushido Federation (www.worldbushidofederation.com) which is a martial arts academy which I developed their main website from scratch and also added a little Ecommerce to buy some products and suscriptions using technologies such as: NextJS, Javascript, SASS and Stripe.
Also another project that I developed as freelancer was a students platform for a English Academy where their students can upload their homeworks and projects, stay tune, and teacher are able to assign new task, homeworks and schedule events using technologies such as: NextJS, tailwind, NodeJS, PostgreSQL.

Education

Bachillerato Técnico Profesional en Informática, Inst. Oficial Unión Y Esfuerzo, Villanueva

February 2013 — February 2019

Full Stack Developer, Udemy, Online

February 2020 — December 2019

Ingeniería en computación, Universidad Tecnológica de Honduras

December 2023 — Present

I am currently studying computer engineering at the university.
